

Providing reliable, innovative energy for 85 years

TIMELINE

- 1935** Calor Gas established.
- 1967** Calor awarded Royal Warrant by Her Majesty The Queen.
- 2018** Received UK's first BioLPG².
- 2040** Calor 100% renewable energy supply pledge³.

★ Trustpilot Ranking¹ ★★★★★

1ST UK's leading LPG Supplier⁶.

OVER 196,000 UK customers.

ENGINEERING

- 100** Gas Safe[®] registered engineers and subcontractors.
- 24/7** National emergency coverage.

CALOR & SHV

- 25** Countries in which our parent company SHV operates.
- 30 million** Customers are served by SHV Energy over 4 continents.
- 17,000** Colleagues working at our global family.

SECURITY OF SUPPLY

- 100,000** Tonnes of strategic storage in the UK.
- 2** of Europe's largest LPG gas storage terminals.
- OVER 1,000** Dedicated in-house specialist LPG delivery vehicles.

BioLPG

- 58,000** Tonnes of BioLPG received to date by Calor⁴.
- 85,697** Tonnes of CO₂ saved since the introduction of BioLPG⁵.

¹Data accurate as of 01/07/2020.

²BioLPG – a biopropane which is chemically identical to LPG and is compatible with all LPG products, but this sustainable and renewable fuel is made from a blend of waste, residues and sustainably sourced materials. BioLPG is currently available for the Transport and FLT sectors, however with more volume planned to come in and increased demand we'd be looking to introducing it gradually to the other business sectors that we supply energy to such as Agriculture, Hospitality, Housing Developments, etc.

³We aim to offer our customers 100% renewable energy solutions by 2040.

⁴This is 113,506,000 litres. As of 01/07/2020.

⁵Based on a minimum 50% reduction using Bio – 1.51kg of CO₂ emitted per litre.

⁶The largest supplier by volume based on the UK market share statistics as produced by the government department BEIS.
